The Federalist Papers was a collection of 85 essays and articles written by Alexander Hamilton, James Madison, and John Jay. The essays were written under the pseudonym "Publius" to support the ratification of the United States Constitution. The essays were initially published in various newspapers under different pseudonyms. In 1788, the essays were compiled and published in a bound volume titled The Federalist. The essays were written to counteract the arguments of the Anti-Federalists, who opposed the Constitution.

The essays urged New York delegates to ratify the Constitution. In 1788, the essays were published in a bound volume entitled The Federalist and eventually became known as The Federalist Papers. Some people felt that the Constitution would give the central government too much power and would limit individual freedom. The Federalist Papers defended the Constitution and argued that it was necessary for the stability and prosperity of the young nation.
